

Observe and Draw an Insect

Name: _____

1. Begin by drawing the insect, as directed below, in the space provided.

		
		Colour the insect in.

2. Observe an insect.

- a) Go outside with a camera and look for insects. If you can't find an insect, look under a rock. Take a photo of the insect. You could also scoop it into a jar and observe it for a short while before releasing it again.
- b) Draw a picture of your insect in your class workbook.
- c) Write at least three sentences about it, describing its shape, size and colour. What kind of insect is it? What do you know about the insect?
